P2 Technical Report

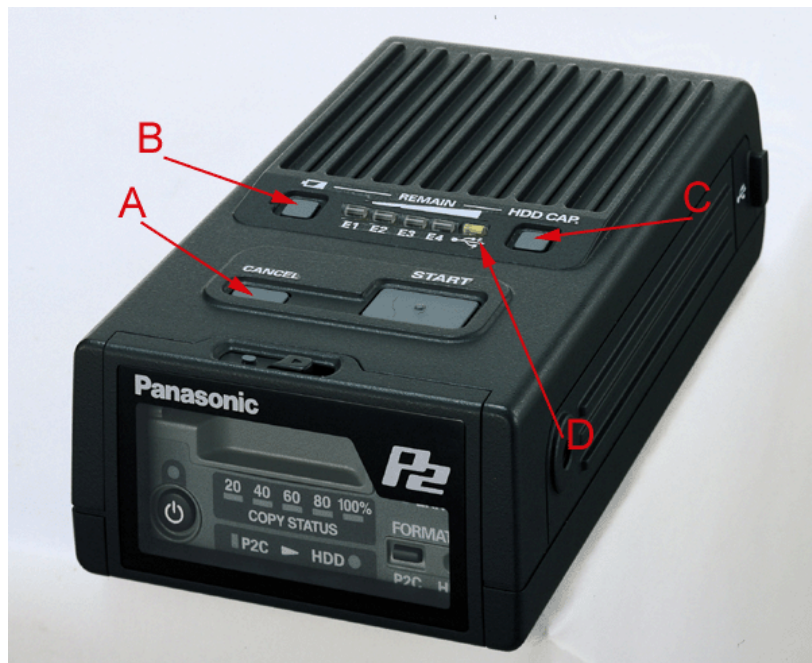

1/12/2006

Product: AJ-PCS060G P2 Store

Subject: Changing Operational modes for Compatibility with Macintosh or PC computers

To change compatibility mode between Mac and Windows:

1. Connect USB cable between P2 store and Mac or PC, and then turn on P2 store.
2. Make sure USB LED (D) lights.
3. Press HDD capacity indicator button (C) first, then push CANCEL button (A), and then Battery level indicator button (B) and then hold for more than five seconds.
4. The color of USB LED (D) is orange for Mac, green for Windows.

5. It should be noted that you may have to unplug the P2 Store and plug it back in, in order for it to be recognized by the Mac or PC. You will also need to have it unplugged from the computer in order to transfer cards.
